What happened to the par (exercise) course that was supposed to be completed this spring at Los Gatos Creek Park?

CONCERNED

Editor's note: According to Campbell Public Works Director Joe Elliott [illegible] creekside exercise course will not be completed until late summer, "at the earliest." The project ran into delays because three agencies, plus the city, had to review plans for the course. That process is now almost complete, Eliott added.

How long is Campbell going to remain in the dark ages? Traffic signals at Winchester and Campbell avenue and at Winchester and Latimer do not change according to traffic conditions yet the taxpayers of this city, like myself, paid a pretty penny to have a system installed. The signals used to work but since the "new" lights were installed some months ago, the lights now work against the people. During non-rush hours, even with no cars coming, I still must wait endless time, burning up (wasting) gasoline. Don't be surprised if this fair city gets a bill for this wastage. They should refund all those taxpayers who have been swindled. Perhaps the owner of the Shell or Arco station on one of those corners is on the City Council!

John Christman

Editor's note: No city councilman owns those stations. The traffic detectors at both those intersections had to be removed while street work was being completed, according to Elliott. And city crews can't replace those detector loops until the final asphalt has been installed. Originally, work was to have been completed late last year but heavy rains put a damper on those plans. If the weather holds up, those regulators may be in soon. If not...?

I remember the city talking about having Campbell Community Hospital cover up their sign now that it's closed. But what about the number of signs still out on the expressway and freeway? I think that's inconsistent.

Local Businessman

Editor's note: According to Keith Manley, assistant civil engineer, the state and county were notified to remove the signs about two weeks ago and after your call he telephoned to remind them.

Protesting parents plan public meeting April 4

Save Our Schools (SOS), a newly formed citizens group that opposes the closing of schools in the Campbell elementary district, has set a public meeting for Tuesday, April 4 to discuss the issues, arguments and physical and financial support for their campaign.

The meeting starts at 7:30 p.m. Tuesday at the Calvin Presbyterian Church, Fruitdale at Meridian in San Jose.

SOS announced earlier their determination to take the issue to court, if necessary, and one of the speakers that night will be an attorney, according to JoAnn Fairbanks.

Ealier this month Campbell elementary trustees voted to close down five schools in the next two years. Quito, Cypress and Moorpark are slated for a September 1978 closing with San Tomas and Sherman Oaks to follow in 1979. A sharply declining enrollment in the local district was the main reason for that move.

Average daily attendance went from 11,760 at 19 schools in 1967, to 7,572 students in 1977 at 17 schools. That trend is expected to continue at least through the 1982-83 school year.

What is unusual about this picture of students and a car at Campbell High School? Other than the fact that the VW sports a hat, hair, eyes and a toothy grin. For the answer turn to page 3 of today's PRESS.

Speed zone snarl

Council blasts radar use

By MIKE MYSLINSKI

A head-on collision between the Campbell City Council and the police department over the question of revising the city's speed zones has suspended a decision on the matter for at least 30 days.

Monday night the council rejected a list of proposed speed limit revisions submitted by city assistant civil engineer Keith Manley. The list, prepared in conjunction with Campbell Chief of Police Donald Burr, would have given police "the unquestioned ability to use radar on all arterial and collector streets," Manley said in a report to the council.

Chief Burr pointed out to the council that his men are having a rough time making their speeding tickets stick in court. Judges are throwing the radar tickets out, he said, because they feel the current speed limits are outdated and invalid.

But discussion skidded to a halt when some councilmen took issue with portions of the list outlining which streets would have their speed limits increased.

Councilman Rusty Hammer told Chief Burr there was no way he could support increasing the speed limits in residential streets, as proposed.

And Councilman Bill Podgorsek reminded Burr that the crucial issue here is safety, not whether the speeding tickets stick in court.

One way to reduce the amount of tickets rejected in court, Podgorsek added, would be to eliminate the use of radar by police to snare speeders, thus reducing the number of tickets issued.

"I will use radar and I will continue to use radar unless directed to do otherwise by the council," Chief Burr almost shouted back at Podgorsek.

Councilman Ralph Doetsch challenged the proposed raising of speed limits on some downtown streets. Even if the speed limits were raised to 30 mph, motorists would probably go faster and the police would have a field day handing out tickets, he said.

"You're going to pick those people up like flies," Doetsch told Burr.

In a unanimous vote the council directed Burr to review the proposed list of speed limit modifications with public works director Joe Elliot, and to report back in 30 days.

At that time another public hearing will be held.

The council voted after hearing public works staff member William Helms explain why the speed limits on many streets in Campbell need to be revised.

Helms said new laws require cities to conduct traffic surveys. The speed limit for a particular street is then determined by what speed 85 per cent of the cars surveyed were moving.

Based on that formula, the council was asked, and declined for the time being, to approve the following speed limit modifications:

Raised to 25 mph: Old Camden Avenue from the southerly city limits to Dell Avenue.

Raised to 30 mph: Latimer Avenue from San Tomas Aquino Road to Central Avenue; Campbell Avenue from Winchester Blvd. to Foote Avenue; Bucknall Road from Westerly city limits (without Fullton) to San Tomas Aquino Road; Bucknall Road from the westerly city limits (without Abbey) to Virginia avenue; Rincon Avenue from San Tomas Expressway to First Street; Budd Avenue from Virginia Avenue to Winchester Blvd.; Westmont Avenue from the westerly city limits to the easterly city limits; Sunnyoaks Avenue from Dell Avenue to San Tomas Expressway and Hacienda Avenue from San Tomas Aquino Road to Dell Avenue.

Streets also having their speed limits increased to 30 mph; San Tomas Aquino Road from Bucknall Road to Campbell Avenue; Virginia Avenue from Hacienda Avenue to Bucknall Road; Dell Avenue from Division Street to Sunnyoaks; Whiteoaks Road from the south city limits to Camden Avenue; McGlincey Lane from Curtner Avenue to Union; Sunnyoaks from Virginia to Winchester Blvd.; Central Avenue from Grant Street to Hamilton; Harrison Avenue from Civic Center Drive to Salmar; Salmar from Harrison to Hamilton; Almarida Drive from Hamilton to David Avenue; Civic Center Drive from Fourth Street to Foote; Orchard City Drive from Third Street to Foote.

Raised to 35 mph: Hamilton from westerly city limits to the easterly city limits; Campbell Avenue from the westerly city limits to Winchester; Campbell from Foote Avenue to Bascom; Pollard Road from San Tomas Aquino Creek to West Parr Avenue; San Tomas Aquino Road from Campbell to Latimer Avenue; Winchester from Hacienda to the north city limits; Union from Campbell to the south city limits; Bascom from the north city limits to the south city limits and Camden Avenue from Hwy. 17 to the south city limits.

Raised to 45 mph: San Tomas Expressway from the northerly city limits to Hwy. 17 and Winchester Blvd. from the south city limits to Hacienda Avenue.

A romp in Morgan park

What do you do on a sunny day during the first week of spring with a week's vacation from school? For many youngsters it was taking a trip, a visit to the beach or sleeping till 9 or 10 a.m. for a change. Others spent their free time just hanging around like the two 11-year-olds shown here at John D. Morgan Park. Rich Shumate and David Pogue were among enthusiastic spring vacationers spotted by photographer Amy Huntoon last week at the park.

Plan to be a life guard???

Late signups are being taken for the advanced life saving class being offered through adult education at the Del Mar High School pool.

Classes began this week and will continue through May 2 at the 1224 Del Mar ave. center Tuesday and Thursday evenings from 6:30 to 8:30 p.m.

This course is a requirement for lifeguards and people who plan to teach swimming for parks and recreation. The class, instructed by Julie Palmquist, is also helpful in promoting safety in water sports and backyard pools and for those who plan to be summer camp counselors.

The American Red Cross certificate is given for successful completion of the course.

For information call 298-0260 Monday, Tuesday or Thursday evening between 6:15 and 10 p.m.

Bartender's school

Where barkeeps learn their art

BY LAURIE SLOTHOWER

It looks like any other small, 12-stool bar — almost.

At 9 a.m. it's open a little earlier than most bars. But a quick glance behind the bar shows three bartenders, but no customers. And if there were customers, they would surely gag on the "concoctions" of amber-colored water and plastic marachino cherries.

Actually, though, it's not a bar at all, but the elaborate classroom of the American Bartender's School, 1765 Scott Blvd.

At the school aspiring drinkmasters can learn everything from how to mix a Zombie (orange juice, dark rum, sweet and sour, triple sec and grenadine) to what to wear (vests are recommended to give that professional look) to how to handle disorderly customers (be firm but polite and never — repeat, never — argue with them.)

"The average training is equivalent to 10 months of tending bar," says Gordy Reynolds, director of the school. "My personal instruction is worth about a year's experience."

In fact, he asserts, many places would rather hire a person with school training over someone with experience as they'll have to train the person with experience anyway.

So what makes a good bartender? Three parts congeniality to one part politeness poured over a warm personality might be Reynold's recipe.

"Everytime that front door opens, it's a challenge. You have to approach each customer with a positive attitude," said Reynolds, who has been a bartender himself for 11 years. "You've got to make them feel accepted."

For that reason, many of the ten, four-hour classes emphasize customer relations.

"Most people have dynamite personalities but they don't know it," said Reynolds. "Bartending brings it out of them."

Reynolds also advises barkeeps not to give coffee to try to sober someone up.

"All it does is put a wide-awake drunk on your hands," he said.

In addition, potential graduates of the school must be able to mix ten drinks in under five minutes before they are awarded their diploma in "mixology" from the school. Reynolds said that his personal timing for mixing ten drinks is about a minute and a half.

Graduates can expect to earn about $150 a week plus $15 to $20 a night in tips, Reynolds added. That makes the average barkeep's take-home pay around $225 to start — more than many white-collar workers (or for that matter, aspiring journalists) make.

Reynolds likes to think of American Bartending School as the Chivas Regal of bartending schools. It is also the most expensive, he acknowledges, but it's the largest vocational training school chain in the country, as well as being certified as a vocational school by the state Board of Education.

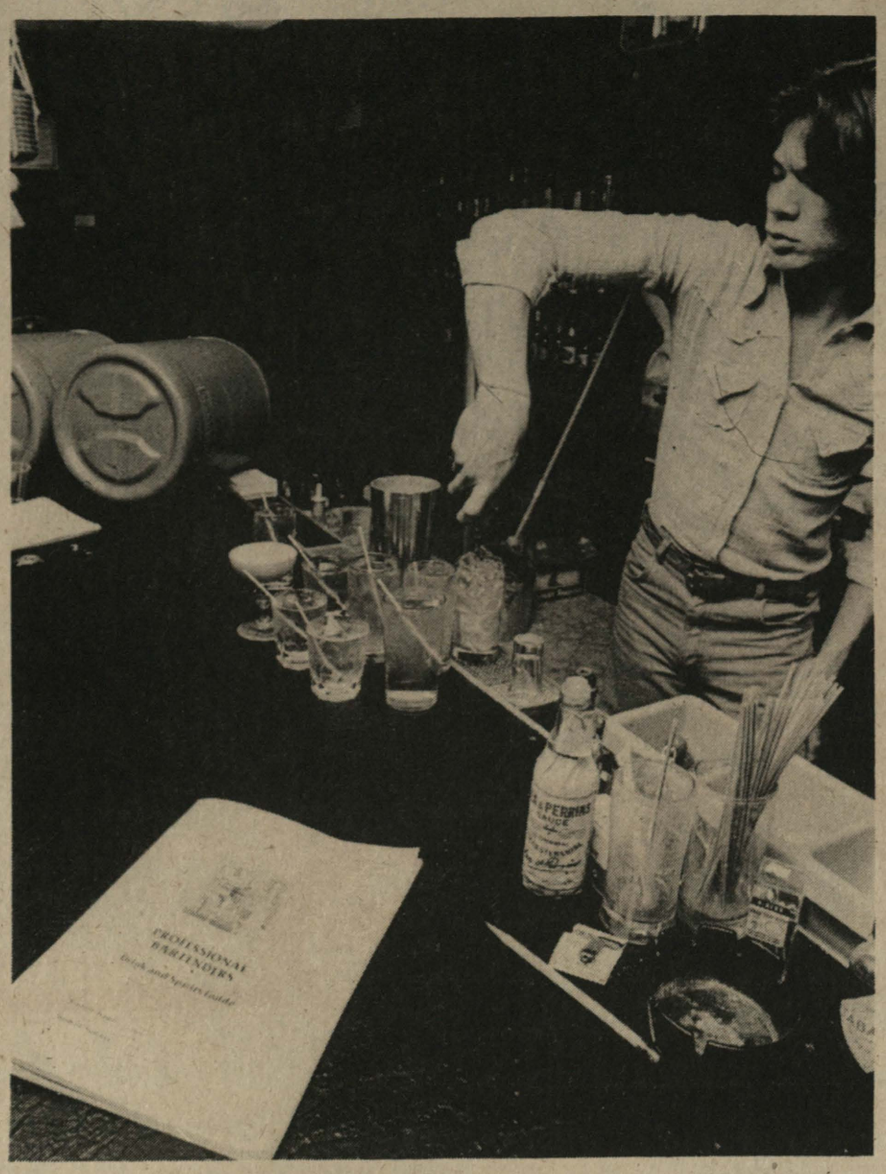
As for the students, they are seemingly devoid of those back-to-school blues.

"I like the classes," said Rick Howell, "but I was told a long time ago I'd make a good bartender. I'm pretty easy-going and I like to party a lot. This seems like one of the easiest jobs in the world, it pays good, and I can pick up any kind of job wherever I travel."

"It's not that easy, added Neil Reeder, an alumnus who was there taking a refresher class towards his job at the Keystone in Palo Alto. "It's more than just mixing drinks. They teach you how to handle money and how to handle drunks — customer relations." Reeder says his job makes for an interesting vantage point to watch people.

All the students mentioned "socializing" as one reason for being a bartender. Instructor Michael Reed, who does not drink at all because of an ulcer, added that liking people is a prerequisite for the job.

Or, as he put it — "You have to be friendly. I just figure I'm throwing a party but they're paying for the drinks."



Richard Galang, student at the American Bartender's School in Santa Clara, practices mixing drinks. Galang is nearing graduation from the school, which belongs to the largest vocational training school chain in the country. On the table is the textbook used by the class.

Tomfoolery to fit the day

By JEANIE SCHULTZ

APRIL FOOL'S Day used to be a big event in grade school when I was a kid. Conversations went thus:

"You have a tarantula crawling on your collar." "Eek!" "April Fool!"

Perhaps April 1 could now be renamed "Parents Day." Kids pull this kind of nonsense on parents for years. Since Mother's Day and Father's Day accentuate the positive, I think April 1 would be appropriate to commemorate long-suffering parents at the other end of the stick.

A typical April Fool situation, son talking to father:

"I had a little trouble with the car."

Father talking to garage:

"$1,100 damage?" (Heart attack begins). "Oh, to the other car." "The other guy's fault?"

Daughter, 18, confiding to mother:

"Steve and I are going skiing this weekend."

"Is there enough snow?"

"Well, if skiing is bad, Steve and I have thi special thing we both love to do . . . Mother, sto mopping your face with the dishrag . . . I MEA snowmobiling."

THIS IS NOT to suggest that parents are fools, thought there may be some questioning in later years of the mental state that produced the decision to become a parent in the first place. It's just that after years of the inattentive answer preceding the big bomb, you eventually swing the other way and start with the worst conclusion first instead of working up to it.

The class of '78 at Campbell High placed the decorated auto on the roof of the dean's offices as a senior prank. The improbable sight, above, greeted students and staff Monday morning. The VW, sans engine, was reportedly placed atop the roof by a student-operated fork lift. District crews got it down Monday afternoon.

Condition for Bruener's project

Freeway facing sign must come down

BRUENER'S CAN GO ahead with plans for an addition to their 525 E. Hamilton ave. business, planning commissioners ruled last week, with one condition. But that condition may result in an appeal to the City Council or in abandoning the project.

Commissioners unanimously approved the staff recommendation that the local furniture store remove the large roof sign facing Highway 17. That sign was erected before the city adopted the new sign ordinance banning freeway oriented signs.

John Littlefield and Sinclair Construction Company, representing the John Bruener Company, plan to construct a 4,600 square foot addition to the existing structure on the 7-acre Hamilton ave. site.

Requiring removal of nonconforming signs when businesses seek approval of other projects is standard procedure for the planning department. The idea is to eventually bring all signs within Campbell up to present standards.

IN OTHER BUSINESS last week the commission:

• Unanimously approved the sign application of Councilman Ralph Doetsch Sr. for his property at 2175 S. Winchester blvd. in a downtown commercial zone. The existing nonconforming sign was damaged last month when heavy winds hit Campbell. Doetsch originally sought approval of a 14 by 26 foot freestanding sign but that was later reduced to no more than 12 by 23 feet to meet city standards. The Sign Review Committee, which considered the application earlier, gave no recommendation.

• Voted to recommend prezoning of property at 1154 and 1164 Smith ave. as low density residential. The staff recommendation was for low-medium density residential Neighborhood residents appeared before commissioners that night and spoke in favor of the R-1 zoning. Commissioner Oleg Lubeckis opposed the motion.

• Directed staff to prepare a general plan review of the San Tomas area. That report is expected sometime in May.

• Voted 4-1, with Commissioner Don Hebard opposed, to approve plans by Father Gregory Post for a use permit and approval of plans for conversion of a residence at 110 W. Latimer ave. into a chapel and rectory.

• **RECOMMENDED APPROVAL** of the application for a use permit and approval of plans for expanding the Bank of America parking lot at 125 E. Campbell ave. to 38 spaces. Richard Miller and Continental Service Company are representing the bank. The commission also required, under phase II of the project, that the firm show proof of ownership of the two new parcels before final approval. Part of that land is presently owned by the Campbell elementary school district.

• Recommended approval of plans by James Hite to construct 12 townhomes at 806 S. San Tomas Aquino road and a zone change from multiple family-medium density residential to planned development-medium density residential.

• Recommended approval of a one year extension of plans for an 18 unit townhouse at 650 W. Sunnyoaks ave.

• Approved the application of Arthur Burton and BAT Development to construct an industrial building at 599 McGlincey lane in a light industrial zone.

Delay in high rise complex

Construction will get underway in June on the high rise senior citizen housing complex at 1655 S. Winchester blvd., according to a revised development scheduled submitted by the Santa Clara Methodist Retirement Foundation.

Last week planning commissioners recommended approval of the new schedule for the multimillion dollar 12-story development known as Wesley Manor.

Originally construction was to have begun in January of this year.

Under the revised schedule, the high rise, 156-unit complex will be completed in May of 1979 with occupancy to begin the following month.

In a letter to the commission Cecil Keller, foundation president, reported construction bids were opened in late December and the project awarded to Campbell Construction Company of Sacramento.

The federal Housing and Urban Development-financed project will rent to low and moderate income seniors who will pay a maximum of 25 percent of their monthly income for rent. The balance will be paid by federal subsidy.

people

KIMBERLY PERFORMS

Greg Kimberly, a clarinetist from Campbell, will be one of those performing this Saturday, April 1 as the El Camino Youth Symphony presents its second concert of the season.

The concert begins at 8 p.m. in Spangenberg Auditorium at Gunn High School in Palo Alto.

RESCIGNO RECEIVES DOCTORATE

Ron Rescigno, assistant superintendent-personnel for the Campbell Union School District received his doctorate in education from the University of Northern Colorado at winter commencement March 15.

The local administrator, who earned his bachelor's degree from Wilkes College and his master's degree from Columbia University, began his teaching career in East Islip, New York where he taught and coached football and baseball.

He joined the local district in 1974 as principal of Campbell Junior High.

SCHULZ GRADUATES WITH HONORS

Navy Airman David A. Schulz, son of Jane Broke, 601 Almarida drive, recently completed the basic aviation machinest's mate jet engine course with honors.

He joined the Navy in October of 1977 and trained at the Naval Air Technical Training Center, Millington, Tennessee.

COLLEGE STUDENTS COMPETING

Three West Valley College students are competing in the first round of the Bank of America's 1978 community college awards program.

Students and their field of study are Jo Ann Guzik, business; Kurt Fuller, science-engineering and Myra Prestidge, social science-humanities.

The three will compete against other winning students at the March 29 semi-finals.

HECKERT COMPLETES BASIC TRAINING

Navy Ensignm'en Fireman Apprentice Dave M. Heckert, son of Mr. and Mrs. Norman Heckert, 887 N. Central ave. has completed the basic engineman course at the Naval Training Center in Great Lakes, Illinois.

Heckert joined the Navy in October, 1977.

DUNWOODY COMPLETES BASIC

Navy Seaman Kent Dunwoody, son of Karen Dunwoody, 925 Scott court, has completed basic training at the Naval Submarine School in Groton, Conn.

The 1977 graduate of Westmont High School joined the Navy in September of 1977.

People

GREENAWAY PROMOTED

David A. Greenaway, son of retired U.S. Army Master Sergeant and Mrs. William Greenaway, 4003 Rincon ave., has been promoted to senior airman, an official at Fairchild AFB, Washington announced recently.

The 1973 graduate of Westmont High School is a security specialist with a unit of the Strategic Air Command.

Transfer staff instead of students

EDITOR:

As an alternative to closing down the schools in the Campbell Union School District (elementary), it is suggested that two schools be combined.

In other words, one school would act as the main school and the other school would act as a satellite where only a few classrooms would be operated. The main school would house the principal, secretary, etc. Certain teachers could travel between schools when special teaching skills are required. The principal would spend some time at the satellite school.

It would be far better to have the principal and teachers travel between schools than to have the students bused. It would also be better to have teachers employed at schools rather than bus drivers and mechanics.

The tradeoff in money might not be as great as anticipated if classrooms are shut down at both schools. The difference in utilities wouldn't be very great.

It may mean that the youngsters might have to wait longer to start a new class or that the age group for first grade might have a larger spread. But it is better to have the facilities already close at hand operating on a neighborhood basis.

Call a halt to seal slaughter

EDITOR:

Springtime brings new life to the awakening world of nature. For the newborn harp seal pups on the ice floes off Canada's Atlantic coast, springtime also brings the "sealers," men from the eastern Canadian provinces hired by the Norwegians to take clubs in hand and bash in the skulls of the three-week old pups. The white pelts of these helpless victims are used for boot trim, glove lining, fur coats and, ironically, for toy harp seals.

These toy seals may soon be the only survivors of the annual hunt if the Canadian and Norwegian governments persist in ignoring the recommendations of various scientific committees who claim that the life and death of an entire species is now at stake.

Since 1900 more than 17.5 million seals have been slaughtered. At that time the harp seal population was an estimated 10 million; today barely a million are left.

An argument raised by Canadian government officials is that the hunt is an economic necessity — nothing is further from the truth. In actuality .1 percent of the Newfoundland economy is dependent upon sealing and only .2 percent of the province's 560,000 people are employed in the commercial sealing industry.

Letters protesting the continuing slaughter of harp seals should be addressed to:

Prime Minister Trudeau
House of Commons
Ottowa, Ontario K1A 0A3

Premier Frank Moores
Confederate Building
St. Johns, Newfoundland
A1C 5T7

Canadian Ambassador
J. H. Warren
1746 Massachusetts ave., N.W.
Washington, D.C. 20036

Norwegian Ambassador
Soren C. Sommerfelt
4200 Wisconsin ave., N.W.
Washington, D. C. 20036

The pressure is on — on those responsible for this outrage. It is up to all of us to keep applying that pressure until the hunt is brought to a halt.

A thank you for club publicity

EDITOR:

On behalf of the Los Gatos-Saratoga Senior Citizens, Inc. I thank you kindly for your free publicity.

Ours is a self-sustaining organization with no support from the government so we depend on fund-raisers for maintaining the clubhouse, paying taxes, etc.

Kay Young, publicity chairman

We hear you

(Continued from page 1)

City crews are removing the signs on Winchester boulevard, Manley added.

I read you story about why the schools are being closed and I think you made a mistake. Quito School was built long before 1961 or 1962. My daughter attended Quito in 1957 and it wasn't new then. Also, I wonder about why there wasn't more parental involvement in the decision making process in regarding school closings? I understand the problem economically and that, in this case, something has to give.

A READER

Editor's note: According to Assistant Superintendent Ron Rescigno the construction date of Quito that was published last week is correct, as far as he can determine.

It seems to me that the City of Campbell should repair one road at a time instead of digging up all of Campbell. My front alignment is out of whack from driving over those potholes.

CONCERNED

I'm calling from a downtown restaurant and I think that Mike Colpitts had that sports (history) story all switched around. Some of the names and teams he listed weren't right.

SPORTS FAN

That was a good picture, news wise, about the skateboard park last week but there was something missing. The boy skateboarding wasn't wearing any protective gear. Skateboarding, like other sports, can be dangerous if safety rules aren't followed and I think the paper should have pictured someone wearing knee pads and a helmet.

A PARENT

Editor's note: the picture, taken before the park opened last week, showed two workmen putting the finishing touches on the park and a third workman skateboarding. All youngsters (or oldsters) using this park, and the other one under construction on Bascom ave., will be required to wear protective gear.

Have you seen the mess in front of Campbell High School? Today we couldn't get our cars out of the parking lot at lunchtime and when we complained to the cop we were told, "We're not here for the convenience of the students at Campbell High."

IRATE STUDENT

Editor's note: According to a Campbell Police Department official you may well have been told what you report. Tempers may have been short on both sides Monday morning when the students parking lot had to be closed off, along with the rest of the street. Originally the work on Campbell avenue was scheduled to be done during the spring vacation break. Instead, the bulk of the work was completed Monday and Tuesday lanes were to be open again in both directions. Students were reportedly advised of the Police Department closing of the street at 9 a.m. that morning and were allowed to get their cars out of the lot that afternoon when school was out. In addition to your comment we received three calls Monday morning from motorists complaining about the closure.

I just heard about the ABAG proposal that would ban power mowers and chain saws. I think it seems a little ridiculous. What's the story?

A READER

Editor's note: At the March 16 meeting of the Association of Bay Area Governments (ABAG) Environmental Management Task Force the land use componet was removed. That left a total of 24 tons per day of pollutants to be removed by the late 1980's. According to Norma Mencacci, ABAG staffer, the group will be looking into many possible ways of cutting down on pollutants. This list includes smog charges, parking strategy, gas taxes, tractors, construction equipment and small gasoline engines (such as gasoline powered mowers) among others. These sources account for an estimated 110 tons of pollutants daily, or more than five times the reduction needed. At the June 10 meeting these list of pollutants will be ranked based on a cost benefit analysis and emission reduction potential. Plans must be finalized by 1986 and implemented by 1987. "Until they're ranked," says Mencacci, "there's no reason to get excited." She also feels that home power mowers will not be near the top of the list.

Any gripes, kudos, or ideas? Call 378-9136 to sound off.

Plans for deli are up to bat

Plans for a service station, sandwich shop and equipment rental yard come before the Campbell Planning Commission at their Tuesday, April 4 meeting. Sessions start at 7:30 p.m. in the Council Chamber, 75 N. Central ave.

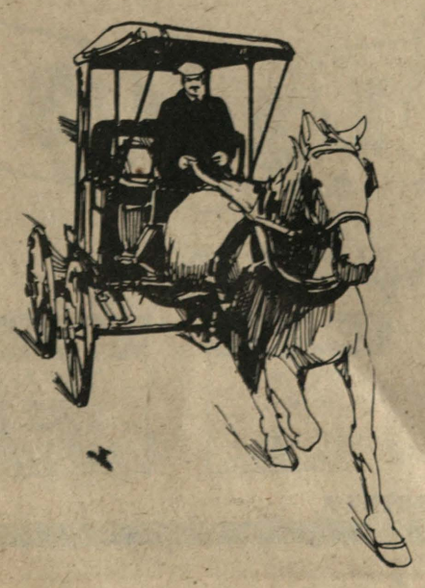
Thomas Bardet and the Mobil Oil Corporation are seeking a use permit and approval of plans for a new service station at 1533 W. Campbell ave. in a neighborhood commercial zone.

Also up for consideration is the application of Peter Welch for a use permit to allow a delicatessen and sandwich shop at 540 Division st. in an industrial building.

Frank Oley seeks approval of plans to construct a truck and equipment rental yard at 1266 Whiteoaks in a light industrial zone.

A public hearing is also scheduled Tuesday for an amendment to the city zoning map which would change property at 3675 S. Bascom ave. from multiple family-high-density residential to planned development-high density residential.

Also scheduled is a report from the Planning Policy Committee on paths and trails in the county, including plans for the expansion of the Los Gatos Creek paths.



impressions

A FIRST FOR CAMPBELL

When electrical power was cut off to part of Hamilton avenue, near Highway 17 on March 11 city crews were out all night keeping three street lights and the traffic signals operating with the use of a generator.

You don't think a generator could power traffic signals and street lights you say?

"We didn't know if we could either," says Keith Manley of the Campbell Public Works Department. "But it worked."

As far as anyone here can tell, it's a first for a generator-operated traffic light.

Nuclear a reliable form of energy

EDITOR:

This winter (1977-1978) has been another severe one and a drain on our supplies of energy. In addition, the country is suffering because of a strike by the coal miners (some 80 days long at this writing). So some people, particularly in the Midwest, will get hurt. Last year, many people hurt and some died because of lack of energy. I, for one, don't want anyone to hurt because this country doesn't have enough energy.

If we have many kinds of energy, it is less likely that failure of any one kind will cause great harm. Right now, we use oil, gas, coal and nuclear fuels. Oil and gas will soon run out. Other sources such as solar, wind, wave, and geothermal still must be proven commercially viable. That with coal this year and last (lack of supply, freezing coal piles and delivery systems). But nuclear plants just kept humming along (refueled only once a year). Chicago didn't hurt. It gets nearly half its electricity from nuclear plants.

So, I would like to voice my support for nuclear power plants and urge all citizens to participate in getting this cheap, clean and safe form of energy more fully utilized in the United States. Specifically, I would like all those who share my view to write. Victor Calvo, Assemblyman, 2570 El Camino Real Way, Mountain View, Ca. 94040, and offer their support of the Sun Desert Nuclear Plant that his committee is considering. Just say that you want the plant. In another drought year it could save us in Northern California a lot of money. If you want energy, now is the time to say so. Tomorrow is too late.

A.N. Tschaeche

Cut costs, use police to fight fires

Have you ever strolled by a neighborhood firehouse and observed firemen polishing their shiny vehicles for the umpteenth time, or whiling away the hours playing cards or watching television? If so, the thought has probably crossed your mind that there must be some better use of a city's money and manpower during those sometimes long stretches between fires.

City and town officials in scattered mid-size and smaller communities across the U.S. have had that same thought. And at a time when cities of all sizes are struggling with spiraling costs and wages for municipal workers, some have come up with innovative cost-cutting proposals for having firemen, policemen, and other city workers share their duties.

In Concord, Massachusetts, for instance, residents are heatedly debating a proposal to combine police and fire services in an attempt to combat steadily rising property taxes. Town manager Paul Flynn says cross-training of policemen and firemen will not only reduce the municipal work force (with its increasing salaries and costly fringe benefits) but speed up the town's response to emergencies — because more trained personnel will already be patroling Concord's streets. Over the next 10 years, the move could trim costs as much as a quarter of a million dollars.

Likewise, Scottsdale, Arizona, has cut fire protection costs almost in half by having other city workers serve as part-time firemen; when a fire occurs, they are excused from their regular duties to join full-time firemen in fighting fires.

While the costs of public safety have more than doubled in most communities over the past decade, Scottsdale residents are paying less than a third of the national average for fire protection. And their dollar loss to fire has been less than in other comparable cities.

Lafayette, California, a suburban community of some 20,000 residents east of San Francisco, is hiring employees for maintaining its streets and other public works projects on a strict "as needed" basis. Not having to maintain a permanent work force has resulted in greater efficiency there, too, according to city officials.

Such experiments naturally stir strong initial opposition from municipal unions as well as residents concerned that public safety not be threatened. And, of course, major cities like New York and Los Angeles — where fire fighters are in constant demand — would not find sharing of fire and police services practical. But in suburban areas, where fires are often few and far between and the "standby" time of firemen considerable, such streamlining seems a reasonable and prudent approach.

Editor's note: An editorial in the Christian Science Monitor.

THE SIGHT, above, on Campbell avenue, will soon be a thing of the past with plans to move the Campbell High School recycle center to the north end of the school grounds off Latimer. According to Dean Lloyd Gillespie, the center operations will be moved this weekend or next. The City of Campbell provided $1,160 for fencing for the new center. In the past the appearance of the center has sparked many complaints and, in recent months, the center was open only occasionally for collections because the teacher-advisor moved from the area. The center is now under the direction of the PTSA and, with the help of volunteer parents, will be open every Saturday from 10 a.m. to 4 p.m. starting later this month.

(Photography by Amy Huntoon)

Over 20 inches

One of wettest years on record

Campbell has a very good chance of hitting a high mark, rain wise, this year with 21.19 inches recorded already and three months to go. It would take a couple of storms like the one that dropped 4.40 inches of rain in January to make this the wettest season on record.

But one of the wettest it is already. Since local records were kept in 1935-36 there have been ten years with more than 20 inches of rain. This year is one of those.

One big difference this year, over the 1972-73 year (25.19) or the 1957-58 (24.35 inches) is the lack of flooding. And this buckets from heaven year comes on the heels of two dry years, 8.03 inches for 1976-77 and 5.85 inches for 1975-76. That 5.85 inches is a 100 year low, says Bob James of the Campbell Water Company.

This year also brought cloudbursts and the wettest days were in mid January when 4:40 inches of precipitation fell in three days. That total doesn't compare with the 1967-68 rainfall year when 4.82 inches fell in just one day, (Jan. 30, 1968). In fact, that almost 5 inches was a third of the total for that year, 14.51 inches.

Average rainfall is a little over 15 inches but a check of the records for the last 42 years shows few which were "average." The 1942-43 year came closest with 15.31 inches just two years after the wettest year on record, 1940-41 with 28.17 inches.

INSPECTING THE rain gauge at the Campbell Water Company is Bob James. One of his duties is keeping the daily record of rainfall. Says James, "We have a very good chance of hitting 25 inches this year." That "year" ends June 30.

Shed the old like a snake shedding skin, Gem

April 1 through April 7

ARIES (March 21-April 19): Many delicate threads result in ties that bind. You can avoid additional fetters, Ari, if you keep one corner of world for self. When, where and how you get there is **your** business. Week ends with a "shhh."

TAURUS (April 20-May 20): You have several irons in the fire, Taurus, but none of them are hot enough for branding. Confidence can be poker used to generate needed heat. By last day, you have blaze going and you're ready to make your mark.

GEMINI (May 21-June 20): Shed the old like a snake shedding skin. By letting loose of that which is no longer needed, dear Gem, you discover self deliciously free. Week slithers to an interesting fini.

CANCER (June 21-July 22): Put salve, not salt on another's wound, Moonbaby, and all will heal in good time. Plain old "buttering up" is remedy that's tried and true. Start slathering.

LEO (July 23-Aug. 22): On first day of week, Leo, you are asked a foolish question. So, give a foolish answer. One who oozes charm presses your buzzer before week is over. Week ends with a giggle.

VIRGO (Aug. 23-Sept. 22): You can arrive at solution to personal problem through back door, Virgo. Casual, least-obvious route is best. On last day of week, plant something and love will make it grow.

LIBRA (Sept. 23-Oct. 22): On first day, Lib, relax and do a little fooling around. Then, after you have **that** out of your system, knuckle down to biz. Career/family details pull you in several different directions. Week ends weakly.

SCORPIO (Oct. 23-Nov. 21): A bit of April foolishness on first day wouldn't be out of order, Scorp, but during remainder of week it will be work, work, work. Keep your sanity by sandwiching in a little fun whenever possible (a sideline which comes naturally).

SAGITTARIUS (Nov. 22-Dec. 21): First day a real fooler, Saj. While daydreaming you may step into pothole and land on your fantasy. Serious talk with associate highlighted. Ask questions. Demand answers. Don't settle for glib platitudes. Message clears.

CAPRICORN (Dec. 22-Jan. 19): After a period of stress, you are about to enter new, productive phase. Energy will be needed, so get enough rest and eat properly. This means more fresh fruit and fewer French fries. Toward end of week a touch of spring fever warms your tired blood. Circulate!

AQUARIUS (Jan. 20-Feb. 18): Too many cooks brew a free-for-all, Aquari. One who keeps things all stirred up should be given short shrift. On final day add a pinch of spice to what would otherwise be bland fare. You will comprehend.

PISCES (Feb. 19-March 20): A free ticket to ride may send you someplace you don't want to go, Pisces. Pay your own way and one who wants to make you feel forever obligated will get the drift. Last day for settling accounts.

Siren sounds

"I ACCIDENTLY DROVE OVER MY WIFE"

A Campbell man was arrested on charges of assault with a deadly weapon Sunday morning after an incident at their home on N. Harrison ave. that left his wife with serious injuries.

The suspect told police he and his wife had an argument early that morning after returning from a party and the accident occurred when his wife followed him out to the car and pounded on the window. The man said he inadvertently put the car in drive instead of reverse and veered to the left striking his wife.

She was taken to Valley Medican Center with an almost severed left foot, multiple compound fractures of the left leg and a fractured right leg.

According to a statement by the wife, her husband purposely aimed the car at her and struck her, then backed the car over her again.

GRAND THEFT-PAPER

Don Rose reported to police this week that $600 worth of old newspapers had been stolen from two storage bins at St. Lucy's Church and at 350 Budd avenue.

According to reports, the papers had been collected by the Boy Scout Carpenter Explorer Post.

$6,000 BURGLARY

The W. Hamilton ave. apartment of a Campbell man was reportedly broken into last week and $6,810 in valuables stolen.

Reported missing were $5,000 in coins (the man formerly owned a coin shop), many firearms, three swords including a Samuri sword from the 1600's, a stereo and a bayonet.

SEVEN YEARS OF BAD LUCK

Three young men reportedly made off with a valuable antique mirror from the Khartoum in The Factory earlier this month and, on their way out, dropped and broke it.

According to reports, a bystander witnesses the theft of the $400 mirror. The three were on their way to the front parking lot when they heard police sirens and dropped the mirror. As the police car sped by on its way to another call, the witness aid one of the men picked up the broken mirror and fled.

ASSAULT IN NIGHT SPOT

A 32 year old San Jose man was arrested on charges of assault with a deadly weapon Sunday morning after a disturbance at the Bodega which left a 21 year old Milpitas man seriously injured.

According to the victim, a young woman in the night spot asked for his help when the suspect was bothering her. The victim reportedly told the man to leave the woman alone and an argument broke out. Later, witnesses say the suspect returned and, without comment, began striking the victim with a glass object.

The victim was lying in a planter box bleeding heavily from the face when police arrived and another man was sitting on the steps holding his bloodied head. The suspect, uninjuried, was arrested at the scene.

Police later learned the second man had witnessed the attack and became ill. He told police he went out front for some fresh air, became light headed and passed out striking his head when he fell.

EXTORTION BY PHONE

A clerk in the 7-Eleven store at 262 W. Sunnyoaks was reportedly robbed of about $60 in cash last Sunday night by a man who telephoned to demand money.

According to reports the man told the clerk he had a gun and was watching the store and ordered him to put the cash in a paper bag and leave it behind the building.

The victim did as ordered and immediately called police.

The bag, and the money, was gone when police arrived.

BEATING UNDER INVESTIGATION

Campbell police are investigating the attack on a 57 year old service station manager Monday morning which left the victim with serious injuries after he was struck repeatedly with a lug wrench.

According to reports, police responded to a call at the 76 Union station on W. Hamilton ave. and found the manager bleeding heavily from severe lacerations to the head.

Before being taken to the hospital he told officers a customer who had his car there for repairs had attacked him for no reason. The suspect's car was impounded by police.

More information could not be obtained from the victim Monday because of the severity of his injuries.

DOVER SCHOOL VANDALISM

Vandals caused an estimated $280 worth of damage to Dover School last weekend.

School officials reported roof vents and door windows broken out.

NEWEST member of the West Valley College District's governing board Wade Brummal was sworn in last Thursday by Superintendent James Hardy. Brummal, a teacher at Santa Clara High School, was elected March 7 to the 11-month unexpired term of Donald Lindstrom who resigned last September.

calendar

THURSDAY (30)

News briefs

SALES TAX INCOME

Campbell recently received $246,480 from the state board of equalization at the March allocation of sales and use tax receipts.

The Santa Clara County Transit District received $4.4 million from the half cent sales tax for the same period.

SENIOR THEATER TRIP

Campbell area seniors can take a trip to see the stars of the Lawrence Welk Show through a Community Services-sponsored trip planned for Saturday, April 22.

Deadline for signups is April 13.

Local seniors, 55 and older, will leave City Hall at 2 p.m. that day for a trip to the Circle Star Theater and return at 7 p.m. that evening.

Appearing at the theater will be Myron Floren, Guy and Rolna, Bobby Burgess and Cissy King.

The $8 trip fee includes transportation and show tickets.

For information call 378-8141 weekdays or stop by City Hall, 75 N. Central ave.

MIME CLASSES OFFERED

West Valley College will offer three, two-hour sessions on the art of mime on Thursday and Friday, April 6 and 7 in SPE 7 on the Saratoga campus.

Those interested can sign up for one of the three classes offered at 1:30 and 3:30 p.m. April 6 and 1:30 p.m. April 7.

There is no fee for the class taught by masters of the Claude Kipnis Mime Theater but tickets are required.

Call 379-9415 weekdays for more information.

NATIVE DAUGHTERS ART TALENT CONTEST

High School students from throughout the county will be competing for cash awards in the Art Talent Contest sponsored by San Jose Parlor 81, Native Daughters of the Golden West.

The contest will be held on Saturday, April 22 starting at 10 a.m. at the Orchard City Grange Hall, 109 N. First st. Judging will be from 11 a.m. to noon.

Art subjects must depict a California landmark or event which made California history before 1900. Original works in oil, watercolor, pastels, acrylics, charcoal, pencil, pen and ink, collage or mixed media may be entered. A 100-word description must accompany the art work.

For more information contact Gloria Rosskamp, 1351 Carrie Lee way, San Jose or call 266-9708.

GRIEF AND LOSS PROGRAM

Those who have recently lost a family member or loved one are invited to attend a meeting of the O'Connor Hospital Grief and Loss Program this Monday, April 3 at 7:30 p.m. at the 2105 Forest ave., San Jose facility.

Those wishing to attend should make reservations by calling 298-3900, ext. 440.

CARING FOR WILD CRITTERS

Individuals who want to learn how to care for orphaned or injured birds and mammals can attend a series of classes being offered by the Wildlife Care Center, beginning April 6.

The Center is located at the Humane Society of Santa Clara Valley and classes will be held at Valley Fair Emporium, the Sainte Claire room, Stevens Creek at Highway 17.

Fees range from $10 for adults to $15 per family.

Registration forms are available at the Humane Society Office or call 297-6570 weekends or evenings.

An Affair to Remember with BEA RENÉ

© Bea Rene 1976

Who doesn't love champagne? After you've had one glass, who doesn't want another? Every Mon., Tues. & Wed. are **SIRLOIN AND BREW UNLIMITED'S** "Champagne Days." You're served glasses of bubbly (plus refills) incl. as part of your dinner. It puts you in a festive mood, believe me. Of course, you also receive bottles of wine or pitchers of wine or sangria in addition. So if you are celebrating a birthday, anniversary, raise in salary of just T.G.I.F. day, dine at **SIRLOIN AND BREW UNLIMITED**, locations in Belmont, Fremont, Saratoga plus Oakland & S.F.

I keep receiving calls from ladies who appreciate the hospitality at the **HWEI FU SHING** for their entire family . . . they tell me it's a great place to take the kiddies. There is always an extra fortune cookie or reward for good behavior & they tell me it's a lot of fun to sit around a big table being served family style. Prices remain remarkably low, but the cuisine is delicious. So, for a change of pace, try the **HWEI FU SHING.**

This group is the talented "LIGHT" now appearing at **CLEMENTINE'S RESTAURANT** in Stfd Shopping Ctr. I stopped to hear them last week, since I've been hearing so many raves from readers & – believe me – I found them extremely exciting. They play the type of Jazz that pleases Jazz afficionados from S.F. to Monterey – you'll hear them at the Monterey Jazz Festival & top Jazz spots in the city. I enjoyed Brian Pendleton on saxophone, Steve Deporceri on drums, Rich Kuhns on piano & congas & Jim Curtin on bass, who also is the featured vocalist. All in all, "Light" is one of the best Jazz groups who ever hit the peninsula & let's hope they stay for a long while.

nutrition notes

Give your diet the extra iron you need

By DOROTHY TERRILL

Editor's Note: Dorothy Terrill, a registered dietitian and instructor at De Anza College, holds a M.S. in Nutrition from UC, Berkeley. Questions about nutrition are invited. Address all questions to: Dorothy Terrill, Nutrition Notes, Suburban Newspaper Publications, Inc., P.O. Box 368, Cupertino, 95014. Mrs. Terrill will answer questions as space allows.

A nutritional deficiency common in women between the ages of 11 and 50 is lack of sufficient iron in the diet. The Recommended Daily Allowance for iron for this age group is 18 mg. a day but the average American diet contains only 6 mg. per 1000 calories. It doesn't take long to calculate that you would have to consume 3000 calories to obtain the needed amount of dietary iron.

However, if you do pick and choose foods carefully, it is possible to improve on that figure but it still is difficult to obtain enough. Foods that make a sizable contribution to iron intake include liver (6.6 mg. iron in 3½ oz.), leafy greens such as spinach (2 mg. in ½ c. cooked spinach), dried fruits (2.5 mg. in ½ c. raisins), enriched and whole grain breads and cereals (0.6 mg. in 1 slice white enriched bread). In fact, you need only read the cereal boxes to discover how much they contribute to the diet. Quick cooking cream of wheat is especially rich in added iron.

While the amount of iron in the diet is very important, the kinds of foods that it comes from also have an effect on how much iron is utilized. Iron is absorbed from the upper part of the small intestine. About 3 to 4% of the iron from vegetable foods is absorbed and 15 to 20% of the iron from animal foods. In a mixed diet about 10% of the total iron taken in is absorbed.

One nutrient which aids in iron absorption is vitamin C. However, since heat destroys vitamin C the effect is lessened in cooked fruits and vegetables. This is one reason you should include one uncooked vitamin C source in the diet daily. An example of two foods interacting in this way is orange juice and eggs. Drinking orange juice at a meal with egg results in about three times more iron absorption than when the egg is eaten without citrus juice.

Iron absorption is greater in the person who is iron-deficient. When the body has a greater need, it makes better use of what is available.

One way that iron can be added to the diet is by cooking in iron pots. Spaghetti sauce cooked in an iron pot contains 50% more iron than that cooked in a stainless steel or other non-iron cooking utensil. To take advantage of iron from the cooking pot, the pot must be unseasoned (an "old, rusty, iron pot" is best), the food must be of an acidic nature, and the cooking period must be long so that there is time for the iron to be released from the container. Admittedly, the spaghetti does have somewhat of a metallic taste but the family will soon become accustomed to the "full-bodied" flavor of this iron-rich spaghetti.

Teen-age girls are particularly susceptible to iron-deficiency anemia. They are in a period of growth with iron demands for this function, plus they lose iron monthly during the process of menstruation. In addition to these factors, their diet is often chosen haphazardly and eaten hastily with little thought to the needed nutrients.

Unless a woman is careful about selecting iron-rich foods every day, it is probably a good idea to take an iron supplement. Choose one whose label reads iron in the "ferrous" form rather than "ferric" because it will be utilized more efficiently by the body. However, iron supplements often cause problems of either constipation or diarrhea and cramps. For this reason, supplements should be taken cautiously and in moderation. Since some iron is obtained from the foods eaten, there is no need to supplement beyond the RDA of 18 mg.

Another Shopping Test Revisited!
Over 11 years ago, in 1967, Mrs. Estelle Appleby made a comparison shopping test and saved $8.28 at Lucky. Again, in January, 1978, we asked Mrs. Appleby to make another comparison shopping test . . . and she agreed. With her own shopping list, she spent $178.02 at Lucky. She then went to another nearby supermarket and using the same shopping list, purchased the same or comparable items. At the "other" market, Mrs. Appleby spent $193.98. By shopping Lucky, Mrs. Appleby spent $15.96 less. Again . . . she saved at Lucky!
Amounts of individual savings vary, according to selection and amount of items . . . but after 11 years between shopping tests, Mrs. Appleby still saved more at Lucky. Proof again Lucky is committed to low everyday discount prices to reduce weekly food costs!
Mrs. Appleby's shopping test was notarized by a Notary Public on February 1, 1978.

St. Francis 1-hits Campbell for fourth

Raust, Melrose spark Buccaneers to fifth at Soquel

Last weekend Mulligan finished second in the jc division in the vault at the prestigious San Jose Relays with a 16'6½" showing, finishing the runner-up to John Werner of El Camino College because of misses.

"GONNA FLY NOW" might have been Sylvester Stallone's theme song in the movie "Rocky," but it doesn't belong to just Stallone any longer — it looks like he's going to have to share the song with West Valley College pole vaulter Jerry Mulligan!

Because Mulligan is certainly "flying now" for the Viking track team as he goes after the West Valley record in the pole vault.

Mulligan has already soared to a state, and possibly national, best in the vault this season in junior college circles with a 16'9" effort.

Werner won the event at the same height.

"He had a good shot at 17'," said Viking coach Bill Campbell of Mulligan. "He's clearly a 17' vaulter. I think if he puts things together he could go 17'6" this year."

IF MULLIGAN does reach Campbell's expectations, he'll not only break Steve Oravetz' (Campbell) school record of 17'1½", but he'll also better the national record of 17'4" set last year by Charlie Brown of El Camino. Brown broke Oravetz' national record last spring.

Mulligan sparked the West Valley effort at the San Jose Relays last Saturday at San Jose City College. But there were other highlights for the Vikings in the meet.

The Vikings picked up a fourth place finish in the distance medley relay. Todd Baker (Westmont) ran the 1,320 leg in school record time of 3:02.1 and Wayne Gray (Campbell) ran the 440 in 49.9. Leroy Bumbaca (Wilcox) ran the 880 in 1:57.4 and Doug Avrit ran the mile in 4:19.3.

Gray, Rob Fisher (Blackford), Rick Hoffman (Westmont) and Gene Antone got together for a third place finish in their heat in the 400 meter relay at 43.0 and Antone was fifth at 54.8 and Rick Howell (Del Mar) was sixth at 54.9 in the 400 meter intermediate hurdles.

Fisher (50.7), Howell (51.4), Antone (49.3) and Gray (49.2) got together for a 3:20.6 in the mile relay for West Valley, lowering their best time in the event this season by four seconds.

The Vikings take the week off from Golden Gate Conference action this week but will head for Concord on Saturday for the Diablo Valley College Relays.

sports

Vike netmen win, lose 9-0 decisions

IN THEIR last two Golden Gate Conference matches, the West Valley College Vikings have been involved in a pair of shut-outs on the tennis courts. Unfortunately for the Vikes, one of them was recorded by Canada!

West Valley picked up an easy 9-0 win over Chabot but lost a 9-0 decision to conference favorite Canada.

In non-league matches over the Easter vacation break, West Valley handled the University of Seattle 8-1, shut-out the University of Oregon 4-0 in a rain shortened match and lost to the University of Portland 6-3.

Shozo Shiraishi (of Saratoga), Dick Harper (Willow Glen), Kurt Klopfenstein (Peterson), John Wilkins, Jay Noble (Campbell) and Hector Arechiga each won in singles play for West Valley and the Vikings also won at two and three doubles against Seattle.

Shiraishi, Harper, Klopfenstein and Wilkins each won against Oregon and Shiraishi, Wilkins and the doubles team of Wilkins and Noble won in the loss to Portland.

West Valley also topped Evergreen Valley College 9-0 in a recent non-league match.

Schlegel part of record

SAN JOSE'S Amy Schlegel was a member of the De Anza relay team which set a new national record in the 13-14 year old girl's 400 yard freestyle relay recently at the Southern California Invitational swim meet.

Swimming at East Los Angeles College, Amy and her teammates Angie Wester, Sarah Hutchinson and Jean Moranda, set a new mark of 3:36.9, almost two seconds faster than the old record of 3:38.45 held by the Cincinnati Marlins.

The time also qualifies the foursome for the Senior Short Course National Championships to be held in Austin, Texas.

De Anza will be sending a team of almost 30 swimmers, among them San Joseans Meredith Williams, Judy Scovel, Amy Bettencourt and Brian James.

Announcing Our New Success In The War Against Fat!
NEW PERMATHENE-12
Once-A-Day
JUST FOLLOW THE PLAN EACH DAY—HELPS TRIM FAT AWAY as your calorie intake goes down—and pounds and inches gradually vanish from sight!
continuous-action capsule reducing plan* —gradually
TRIMS AWAY FAT
Helps pounds and inches disappear!

Yes, it's true—NOW lose pound, after pound, after pound depending on how overweight you are
- without crash diets
- without torturous exercise
- without even giving up sensible snacks or desserts!
- just read and follow important Permathene low calorie reducing plan booklet enclosed in every package

Wondrous Permathene-12 once-a-day continuous-action capsule reducing plan*
WORKS ALL DAY TO HELP YOU GET THINNER
Newly Developed Time Release Capsule Contains:
ONE OF THE MOST POWERFUL REDUCING AIDS EVER RELEASED DIRECT TO THE PUBLIC.

WORKS ALL DAY
In fact, so fast you start growing slimmer in just days!
Yes, continuous action attacks overeating.

Think of it. You take just one of these amazing time-release capsules each morning . . . then for the rest of the day, tiny doses of one of the most powerful reducing aids ever approved for public use are gradually released into your system to constantly curb your appetite, calm your desire for food. But that's only your first giant step on this exciting new journey to slimness.

CONTINUOUS ACTION ATTACKS THE MAJOR CAUSE OF OVERWEIGHT—OVEREATING—THE MAJOR CAUSE OF FAT BUILD-UP

Because thanks to Permathene-12's "miss-no-meals" eating program, not only do you eat more wisely than ever before . . . but do so in such a way that your body actually breaks down those bulging pockets of fat and flab . . . *starting in just days!*

In other words, when you follow the Permathene-12 diet, a continuous action capsule reducing plan, with this once-a-day time release capsule, you actually help your body consume less calories . . . naturally, you eat less, you weigh less, so you . . .

TURN FOOD INTO ENERGY INSTEAD OF OVERWEIGHT

Yes, with PERMATHENE-12, here's what happens when you take this great new ALL-DAY time-release formula . . . and launch yourself on this wondrous new capsule reducing plan:
- **Gnawing hunger pangs are suppressed, so it takes less food to satisfy you, meaning you restrict your calorie intake.**
- **Fat build-up, that up to now you've found impossible to budge, is burned away by your own body chemistry and gradually disappears.**
- **Gentle diuretic action can help eliminate excess water and bloat.**

*Not a crash diet — but the most satisfying, fully balanced reduced calorie eating program you've ever seen. Read and follow label directions carefully.

- **And even though you may lose pound, after pound, after pound with the reduced calorie eating program in every package . . . you never miss a meal . . . never deny yourself sensible snacks or desserts . . . never for a moment starve yourself one iota!**

CURBING THE APPETITE—ONE OF THE MOST EFFECTIVE WEIGHT-LOSS METHODS KNOWN

That's because with the PERMATHENE-12 way to slimness you arm yourself with one of the most modern and effective ways to weight control, reduced appetite and a diet plan that conquers overeating . . . the basic cause of overweight. And because the PERMATHENE-12 ONCE-A-DAY "slim-down capsule program" is working all the time to control your appetite. Following the Permathene Diet plan is by far the easiest way ever developed to achieve that slim, trim body of your dreams.

JUST THINK! YOU MISS NO MEALS—YOU EVEN EAT SENSIBLE SNACKS AND DESSERTS—AND STILL LOSE WEIGHT LIKE NEVER BEFORE!

Yes, with the PERMATHENE-12 low calorie reducing plan you are not asked to constantly battle your appetite. You simply take one of these new ALL-DAY time-release capsules each morning . . . then following the PERMATHENE-12 satisfying eating program, still shed pounds and inches like never before . . . and all without ravishing hunger.

So, no matter what your goal may be—10 . . . 20 . . . 30 pounds thinner . . . here at last is the no-hunger way to LOSE WEIGHT with the finest ALL-DAY ONCE-A-DAY reducing product in America, PERMATHENE-12.

Remember . . . **you must lose weight starting the very first day . . . see results the very first week** . . . results you can measure on your scale and in the smaller trimmer size of your clothing . . . or money back from manufacturer.

Little Leaguers take to streets for sale-a-thon

FOR YEARS, ONE of the greatest things about Little League baseball was that it kept the kids off of the streets and involved in a constructive activity. But that's not true any longer — the Campbell Little League is sending its kids to the streets!

That's right, Campbell is sending its youngsters to the streets this Saturday, April 1, but don't get the wrong idea — the kids will be on the streets and involved in a constructive activity.

The Campbell kids will be traveling door-to-door on Saturday selling "Gift Check" books to raise funds for the league.

The kids will be all over the city on Saturday in their sale-a-thon, selling books of discount coupons for $5 each.

The books include $150 worth of discount coupons, and coupons for 22 free meals, free golf, free theater admissions and free pizzas and hamburgers.

The Campbell Little League will hold the sale-a-thon two weeks before opening day. Campbell will open the season on Saturday, April 15.

Double winners spur Warriors swimmers to non-league victory

THREE DOUBLE winners helped the Westmont high school swimming team pick up an easy 124-28 non-league win over Live Oak recently.

Jeff Holshevnikoff, Tom Boese and Ken Zirzow each won a pair of events each in the Warrior victory.

Holshevnikoff breezed to a win in the 200 free at 1:50 and cruised to a victory in the 500 free for Westmont at 4:57.7.

Boese won two events, setting a school record in one. Boese won the 200 individual medley at 2:07 for the Warriors, good for a new Westmont school record. He also came up a winner in the 100 back at 59.1.

Zirzow, just a freshman, picked up wins in the sprints for Westmont, taking the 50 free at 22.8 and the 100 free at 50.8.

Bill Zirzow nailed a first place finish in the 100 fly for Westmont at 57.2 and Gary Dalley won the 100 breast at 1:07.

Boese, Dalley, B. Zirzow and Nate Laskin combined for a win in the 200 medley relay at 1:47.9 and K. Zirzow, Holshevnikoff, Chris Soule and Eric Beachemin got together for a first in the 400 free relay at 3:36.1.

Mark Diaz capped the list of Westmont winners in the meet with a first in the diving competition at 244.50.

WESTMONT FINISHED second in the West Valley Relays over the Easter vacation break. Los Gatos was first at 132 with Westmont second at 110 and Branham third at 106.

The Warriors won five events in the meet, held Saturday in the Westmont pool.

Dalley, Dave Menard, B. Zirzow and Chris Enborg combined for a win in the 600 individual medley relay at 6:29.3 and Boese, B. Zirzow and Holshevnikoff picked up a win in the 400 back relay at 4:09.

Diaz, Jeff Ames and Bruce Torr dove to a win in the diving relay for Westmont at 192.55 and Andy Story, K. Zirzow, Soule and Holshevnikoff won the 500 free relay at 4:30.6.

Soule, Boese, B. Zirzow and Enborg teamed for a win in the 400 IM relay at 4:08.5 in the meet for Westmont.

Westmont also finished second in the 800 free relay and third in the 400 breast and 400 free relays.

Del Mar won the 400 free relay in the meet clocked at 3:34.1. The Dons were also second in the 200 medley relay and third in the 200 breast-fly relay.

Campbell finished second in the 400 medley relay at 3:59.2 and third in the diving at 116.85 and 200 fly relay at 1:49.9.

Prospect added a third in the all-freshman relay at 4:01.6.

Gunderson tops Del Mar batmen

THE DEL MAR Dons lost a seven inning scrimmage to the Gunderson Grizzlies last week but received a brilliant pitching performance from Jeff Blobaum, nonetheless.

Blobaum, the ace of the Del Mar staff, allowed just one unearned run, one walk and four hits in five innings of work, striking out five.

Larry Ragusa came on in relief and absorbed the loss, giving up two runs and two hits in two innings.

Del Mar collected only four hits in the scrimmage, singles by Dan McKay, Sean Venenzia, Jim Dorr and Bob Cirivilleri.

The Dons came back to win a five inning scrimmage with the Grizzlies, 7-4. John Benevento won the game in relief of Ragusa, despite allowing all four Gunderson runs.

Del Mar opened its West Valley Athletic League schedule Monday against Los Gatos and Tuesday the Dons were to have played Campbell. Thursday DM hosts Westmont in a 3:30 p.m. game.

"If we win all three it wouldn't make us," said head coach Gary Cunningham. "But if we lost all three it would break us."

Tanner in Grand Prix

ROSCOE TANNER, whose rocket serve is regarded as the most devastating on the professional tennis tour, has officially entered the Smythe Tennis Grand Prix of Santa Clara Valley, slated for April 17-24 at Santa Clara University's Toso Pavilion.

The former Stanford University great is a recent winner of the $225,000 American Airline's tennis tournament held at Mission Hills, California and was last year's Australian champion.

Tanner, who defeated Jimmy Connors in straight sets at Wimbledon in 1976, has a serve that has been clocked at 140 miles per hour — perhaps the fastest of all-time.

Volleyball meeting

AN organizational meeting for the 1978 Campbell adult coed Volleyball league will be held on Tuesday, April 4, at 7 p.m. at the Campbell city offices, 75 N. Central ave.

Team managers and players are welcome to attend the meeting. The league entry fee, the length of the season and the number of coed teams in the league will be discussed at the meeting.

League play will begin on Monday, April 10, in the Westmont high school gym.

For further information call Mark McCarroll at 378-8141.

Westmont golfers stop Blackford

TOM BERKLEY walked off with medalist honors to lead the Westmont golf team to a 14-10 West Valley Athletic League victory over Blackford recently.

Balanced Savings:

It's the way we help you keep your savings working as hard as possible.

Here's how it works:
You decide how much of your savings you *really* want to sock away ... money you have no intention of touching for at least six years. Put this money in our 7¾% Certificate Account. Leave it alone, and it'll earn 8.06% a year for you.

That's as high as any savings and loan pays on insured savings. And it's *higher* than any bank pays. In fact, at our rate, you can count on *doubling your money* in less than nine years.

You say you may need some of your savings sooner?
We say no problem.

Simply select one of our certificate accounts with a shorter maturity date ... one that comes the closest to the time when you figure you'll need the money.

That's what our balanced savings service is all about. We help you spread your savings out to coincide with your long-term, middle-term and short-term savings goals. In short, we balance your savings so that they'll work to your best advantage.

8.06%*	7.79%*	6.98%*	6.72%*	5.39%*
6 year Certificate $1,000 minimum	4 year Certificate $1,000 minimum	2½ year Certificate $1,000 minimum	1 year Certificate $1,000 minimum	Convenience Accts. $5 minimum
7¾% Per Year	7½% Per Year	6¾% Per Year	6½% Per Year	5¼% Current rate per year

*Annual yield results when interest is compounded daily and left in account for one year. Government regulations require substantial penalties on early withdrawals from all certificates.

What about money for emergencies?
That's where our 5¼% Convenience Savings Account comes in. Keep some of your savings in one, where your money will earn interest from day in to day out (again, at more interest than banks pay). When an emergency arises, *here's* where to get the money you need. And you won't have to pay withdrawal penalties to get it.

Meantime, your long-term and middle-term certificate accounts are safe and secure ... and growing in value. Of course, if you ever reach the point where you need more money than you have in your Convenience Account, we'll lend it to you against your certificates. Why not? It's still your money.

We'll help you find the right balance.
That's where we're different. We *want* to take the time and effort to help you.

You'll not only come out money ahead with balanced savings, but you'll also qualify for most of our other financial services. Many of them are unique ... and *all* of them are designed to help you save money.

Let's get started now.
Come into any of our offices. Bring your passbook from any other savings institution with you. If you have certificates due to mature soon, be *sure* to bring them. We'll handle all the transfer details at no charge or inconvenience to you.

You'll get a warm welcome. You'll also get a valuable Travel Planner free. It's a handsome folder of leather-like vinyl that has five compartments to hold the road maps we're giving you, plus any other documents you want with you in your car. It's a convenient way to end glove compartment clutter. Please bring the coupon below with you. This offer is available to adults only on a one-per-family basis. Sorry ... no phone or mail requests can be accepted.

Vikings make trip south worthwile—win tourney

THE WEST VALLEY College women's softball team must have figured last week that if they were going to travel all the way to Huntington Beach in Southern California to play in a softball tournament, the college ought to get its money's worth!

And the Vikings certainly saw to that. West Valley played seven games in three days, two times going into extra innings, in the rugged Golden West Invitational Tournament.

And just so they didn't return to the Saratoga campus empty handed, the Vikings battled through the loser's bracket to win the tournament championship!

"We saw the best teams in the state down south and we beat them all," said an elated Viking coach, Les Hearn, after the tournament. "Our girls played just super!"

The Vikings won their opener 10-5 over Pasadena before losing to Mesa, Arizona, 3-2. But West Valley came back to win five straight games, including two straight over Los Angeles Valley College, to win the tournament title.

"It was the best softball we've ever played," admitted Hearn. "They play very good softball down there and for our girls to go down there and play that well, it was just tremendous."

Sue Kensill (Camden) and Janet Heldt (Westmont) each tossed three victories for the Vikings in the tournament to provide West Valley with strong pitching.

PAM GOLDSBOROUGH (Willow Glen), Kim Bowles (Pioneer), Jeanne Wilde (Branham) and Mary Talpas (Pioneer) each crashed seven hits to pace the Viking bat attack in the tournament. Goldsborough, Bowles and Talpas each hit safely in six of West Valley's seven games.

Terry Berg (Branham) blasted five hits in the tourney and Heldt, Jan Ponticelli and Michelle Miner (Branham) slapped four each. Kensill and Trinae Vera (Wilcox) each chipped in three hits for WVC.

Valley fought its way through the loser's bracket to win the tournament title, ripping unbeaten LA Valley in two straight games to pick up the championship.

In the final game of the tournament, Kensill fired a two-hit masterpiece, giving up singles in just the second and fourth, to lead West Valley to a 4-0 shut-out victory.

The Vikings scored four times in the second inning to ice the victory against LA.

Heldt, aboard on a single to center, scored on a two out single by Talpas and Vera, also on via a single, scored on a single hit by Goldsborough. Goldsborough stole second before Bowles delivered a key single to drive in two runs.

Bowles was two for three in the victory for West Valley.

A game earlier West Valley went eight innings to nip LA Valley 2-1 thanks to a five hitter by Kensill. She fanned six and walked none in the win and the only run she allowed was unearned.

GOLDEN WEST TOURNAMENT
CHAMPIONSHIP GAME

LA Valley	000 000 0	0	2	0
West Valley	040 000 x	4	7	0

Tichener and Dohl; Kensill and Wilde.

Top hitters — Bowles (WV) 2x3, Miner (WV) 1x1, Vera (WV) 1x2, Talpas (WV) 1x2, Goldsborough (WV) 1x3, Heldt (WV) 1x3. Runs batted-in — Bowles 2, Goldsborough, Talpas.

Raust, Melrose spark Buccaneers at Soquel

SOME OF the best teams in the Central Coast Section were invited to last week's Soquel baseball invitational.

And the Campbell Buccaneers proved they belong among the Section's elite by bouncing back from a second round loss to capture fifth place in the 16 team tournament.

The Bucs, who had entered the tournament with a puzzling 0-3 record, got in the win column for the first time in 1978 by pounding Carmel 11-3 in their tourney opener.

After falling 4-3 to Marin Catholic, the Bucs stayed alive in tournament play by nudging Santa Teresa 6-5.

Campbell's quest for fourth place was spoiled last Saturday, however, by St. Francis, which posted a 3-1 win.

Catcher Brian Raust, who hit .417 and threw out three opposing base runners, was named to the all-tournament team along with Pete Rolfing and Steve Sepersky of Carmel; Troy Rezendes and Ron Gutierrez of St. Francis; Dennis Keating of Marin Catholic; Ron McGee and Greg Villareal of Lincoln; Mike Brobst, John Gonsalves and Roy Sanfillipo of Buchser; Luis Alvarez, Dennis Mateo and Mike Dalton of Mt. View. Dalton was tabbed the tournament's Most Valuable Player.

Mt. View captured the tourney title with a 1-0 win over Buchser in the finals while Lincoln nipped Marin Catholic 6-5 for third place honors. The consolation crown went to Carmel, an 8-3 winner over Bellarmine.

Although it was Raust who earned all-tourney honors for Campbell, it was another Buccaneer who really caught the fancy of Buc head coach Gordon Huntze.

Melrose, a sophomore called up from the frosh-soph for a look-see in the tournament, earned a permanent spot on the varsity with his play.

In addition to three spotless innings of relief in the win over Carmel, Melrose batted over .400 for the tournament and had an on base average of over .500.

"We brought the sophomore up for the tournament but he won't go back down," said Huntze. "He did a good job."

Mark Sullivan started and notched the win in the Bucs' tournament opener, allowing just one hit and three walks.

Melrose finished up with three hitless innings of relief.

The Buccaneers put pressure on Carmel with an agressive running attack, stealing eight bases.

"We were trying to make things happen," said Huntze.

AND THAT'S exactly what the Bucs did.

Mike Updegraff led the Campbell romp with two hits, two stolen bases and two runs-batted-in. Raust had a hit, three runs scored and one RBI. Mark Ortiz singled, scored three times and stole a base. Dan Trinidad had a single, two RBI's and a stolen bases.

Dave Erkman, Doug Aguilera, Cliff Judd and Sullivan and Joe Cucchiara all had one hit. Erkman and Judd both stole bases and Melrose knocked in a run.

Against Marin Catholic, Joe Jones absorbed an undeserved loss when MC tallied an unearned run in the bottom of the seventh.

Raust was three for four with a double and two RBI's in the loss. Trinidad had a single and drove in Campbell's other run.

The Bucs came back to trip Santa Teresa 6-5 with a three run rally in the fifth, Erkman picking up the win in relief of Trinidad.

"We made two key pick-off plays that I feel won the game for us," noted Huntze.

Melrose was two for three with two runs-batted-in and Updegraff was two for four with one RBI.

Campbell could manage only one hit last Saturday against St. Francis, a first inning single to right by Raust.

Campbell's only run was produced by a third inning double steal involving Melrose and Raust, Melrose scoring on the play.

'Rocks hit road for two games

THE SAN FRANCISCO Shamrocks are on the road for a pair of Pacific Hockey League games this week before returning to the Cow Palace ice on Tuesday, April 4.

The Shamrocks will visit San Diego on Thursday, March 30, and Phoenix on Saturday before returning home to host Phoenix on Tuesday.

Bier leads large field in Moffett Park Race

MORE than 300 runners are expected to toe the starting line on Sunday, April 2, for the third running of the Moffett Park Road Run in Sunnyvale.

The race, sponsored by the Arrow Track Club of Los Altos, will cover 10 kilometers (6.2 miles) and is sanctioned by the AAU.

Runners will take off at 10 a.m. near the Lockheed Missiles and Space Company behind Building 560 on Mathilda. Registration will begin there at 8:30 a.m.

Defending champion Bill Clark of Los Altos and the West Valley Track Club is expected back for this year's race. Clark set the course record last year at 30:57 as a 33 year old.

Top area distance runner Roxanne Bier of Independence high school and the San Jose Cindergals should also be in the field to go after the women's record she set in 1976 at 37:01 as just a 14 year old. Bier is in top form after posting wins in the top races in San Francisco and Southern California, and, more recently, the San Jose Mercury-News sponsored race on March 19.

THERE WILL also be competition for walkers in the race with national indoor record holder Neal Pyke of the West Valley Track Club expected to lead the field. Pyke recently covered a mile walk in 6:04 at the Cow Palace.

The entry fee for the 10 kilometer race is $2 and all entrants must be registered AAU members for 1978. A total of 37 awards will be given to the top finishers in each division: men — 50 and up, 40-49, 32-39, 17-31 (open), 13-16 and 12 and under; women — 30 and up, 17-29 (open), 13-16 and 12 and under.

There will also be awards for the most improved runners and ribbons to all 10 kilometer finishers. Running shoes will be given to the top finishers in the men's and women's divisions.

There will also be a special three kilometer (1.9 miles) race for beginners and other unofficial runners. The non-sanctioned race is free and no awards will be given.

Current record holders in the race divisions, along with Clark and Bier, are Carl Martin, 36:42 in the men's 50 and up; Kent Guthrie, 33:15 in the men's 40-49; William Seaver, 31:01 in the men's open; Robert Smith, 36:05 in the men's 13-16; Jim Myers, 38:36 in the boys 12 and under; Peggy Lyman, 39:31 in the women's 30 and up; Vicki Bray, 37:09 in the women's open; Jackie Marvin, 40:23 in the girl's 12 and under; and Mark Ibraham, 84:26 in the walker's division.

Rain cuts down golf

WHILE THE water tables have risen during the first two months of 1978, the number of rounds of golf played in Northern California have decreased by 40 percent.

During January and February of 1977, members of the Northern California Golf Association recorded 355,000 rounds both at their home clubs and at away courses. During the same period this year, they posted only 218,000 rounds.

SANCRA tourney

THE 1978 SANCRA preseason softball tournaments, men's and women's, will be held April 1-9 throughout the valley.

The men's A-B tourney will be held in Sunnyvale and Santa Clara while the men's C-D tourney will be held in Santa Cruz, Cupertino, Santa Clara, Mt. View and Milpitas.

club notes

COUNTRY WOMEN'S CLUB

Talent is the theme of the Monday, Arpil 3 meeting of the Country Woman's Club of Campbell. The group meets at 1 p.m. in the Community Room of the Campbell public library, 70 N. Central ave.

After the business meeting, members of the club will take part in a talent show displaying their painting, sewing, weaving, music and arts and crafts.

Committee members for the day include Lois Burke, Ruby Englund, Eva Archibald, Myrrl Block, Dorothy Ellis, Opal Dye and Marion Jensen.

CAMPBELL KIWANIS CLUB

Jack Ybarra will discuss transportation in Santa Clara County at the Tuesday, April 4 meeting of the Campbell Kiwanis Club.

The group meets at 12:10 p.m. at the Black Kettle restaurant in The Factory.

LOS GATOS-SARATOGA SENIORS

A luncheon and bazaar is planned for Friday, April 7 by the Los Gatos-Saratoga Senior Citizens. The group meets from 9 a.m. to 4 p.m. in Henry Roose Hall, 550 Hubbell way, Los Gatos.

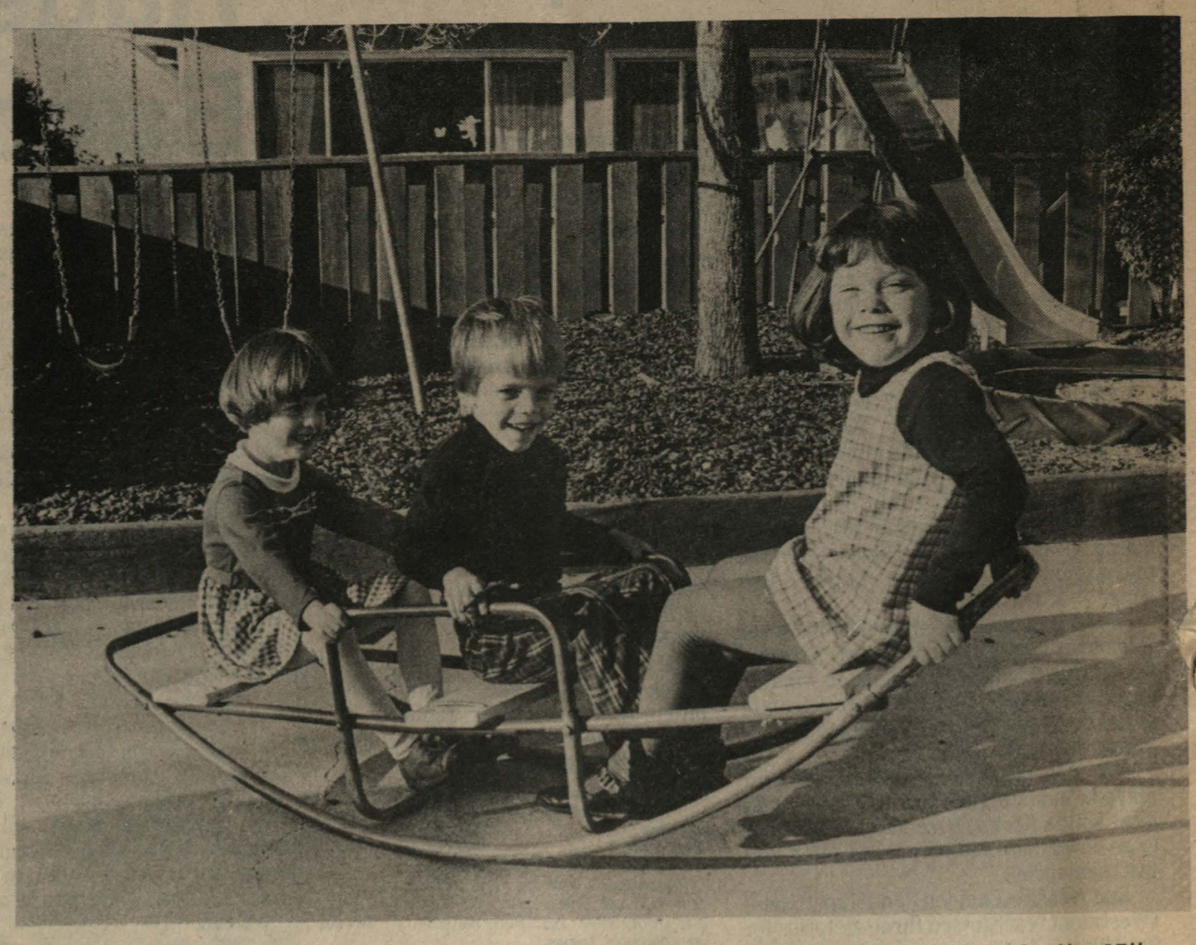
Luncheon will be served at 11:30 a.m. to 1 p.m. and donations are $2.50.

Kick the smoking habit now

The American Cancer Society is sponsoring ongoing stop-smoking clinics at the San Jose office, 1537 Parkmoor Plaza. The next clinic starts May 1, for four weeks.

Classes meet Mondays and Thursdays from 7 to 9 p.m. Space is limited, so the society advises registering early; cut-off date is April 20.

The society also needs ex-smokers to volunteer to be trained to help others kick the habit. Call 287-5973 to volunteer or obtain more information.



IN HONOR of the week of the young child (April 2-8) local preschools are holding open houses to give the public, and parents of preschoolers, a look at their programs. Above, from left, Noelle Wolf, Erik Clampitt and Anne Bigley have fun in the play yard of the Campbell Congregational Pre-school, 400 W. Campbell ave. Open house will be held there this Tuesday and Wednesday, April 4 and 5 from 9:30 to 11 a.m. The local preschool, now in its 17th year, is directed by Georgia Tyson. Other open houses planned include April 4 and 5 from 9:30 to 11 a.m. at the Cambrian Parent Preschool behind Trinity Presbyterian Church, 3151 Union ave., and Thursday, April 6 from 10 a.m. to noon at Discovery Parent-Child Preschool, 1919 Gunston way.

Dine and dance at Del Mar band bash

Chef Roy Fortier will do the culinary honors as the Del Mar Band Boosters present the third annual dinner-dance on Saturday, April 8 in the Del Mar High School cafeteria.

Dinner will be served from 6 to 8 p.m. followed by dancing to the music of the Del Mar Jazz Band.

Tickets are $5 and proceeds will go to the band fund.

Deadline for reservations is Tuesday, April 4.

Call Mayme Abbott at 241-4513 for more information or reservations.

Shape up for the summer

It's time to get into shape for summer and Campbell Community Services has some classes to help you do just that.

Tennis and racquetball classes will be offered this spring along with dog obedience classes for those who want to get their dog in shape, behavior-wise.

Also scheduled are classes in beginning bridge and several dance classes including ballroom, belly dance and Scottish country dancing.

For more information on dates and times of classes call 378-8141 weekdays or drop by City Hall, 75 N. Central ave.

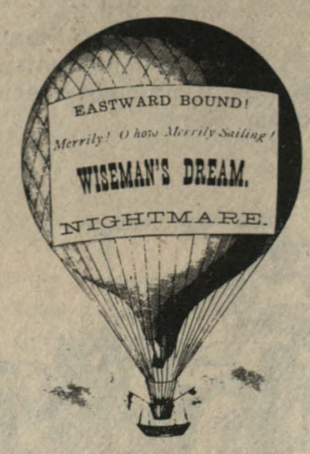
REVIEWING plans for the city street resurfacing project are, from left, Norm Sampson and Mike Lesar of the Public Works Department. In the background is the newly completed stretch of Latimer avenue. Early this week work was concentrated on Campbell avenue, between Winchester and the San Tomas Expressway. According to Project Engineer Dave Valkenaar the $440,000 resurfacing project is now about two thirds complete. Piazza Paving Company has worked on 28 different streets and have nine more to go, including parts of Campbell ave., San Tomas Aquino road, McGlincey lane, Hacienda and Westmont avenue. Work should be completed within three weeks. When finished the federally funded project will have placed over 22,000 tons of asphalt on almost 2 million square feet of city streets. The heater-remixed process (for crack control) will have covered an additional 35,000 square feet of road.

(Photography by Amy Huntoon)



THE WOLF (Morgan Heller of Campbell) carried off the Duck (Kathleen Kane) in San Jose Dance Theatre's "Peter and the Wolf" set for Saturday, April 1 at 11 a.m. and 2 p.m. in the Los Gatos High School auditorium. Tickets, at $2 for adults and $1.50 for children 12 years and under, will be available at the door. Call 867-4541 for more information.

newsbriefs

(Continued from page 8)

WORKSHOP FOR SHUTTER BUGS

Amateur photographers who want to improve the lighting in their pictures can attend a photography workshop this Saturday, April 1 at West Valley College.

The session, from 9 a.m. to noon, will be held in room SBD-8 on the Saratoga campus.

Professional photographer John Barnes will cover basic lighting techniques and answer questions.

For registration call 867-2200, ext. 407 weekdays.

ALUMINUM RECYCLE CENTER

Reynolds Metals Company will have a van stationed at the Westgate Shopping Center on Fridays, from 1 to 4 p.m. to collect aluminum for the Muscular Dystrophy Association.

Consumers who would like to donate can bring in all-aluminum beverage cans and other clean household aluminum such as pie plates, foil, frozen food and dinner trays and other food containers.

During the last three years the public, company and its employees have raised more than $460,000 for MDA by collecting the equivalent of nearly 67 million all-aluminum beverage cans.

Harp seal slaughter death of species?

EDITOR:

Springtime brings new life to the awakening world of nature. For the newborn harp seal pups on the ice floes off Canada's Atlantic coast, springtime also brings the "sealers," men from the eastern Canadian provinces hired by the Norwegians to take clubs in hand and bash in the skulls of three-week old pups. The whilte pelts of these helpless victims are used for boot trim, glove lining, fur coats, and, ironically, for toy harp seals.

These toy seals may soon be the only survivors of the annual hunt if the Canadian and Norwegian governments persist in ignoring the recommendations of various scientific committees who claim that the life and death of an entire species is now at stake. Since 1900 more than 17.5 million seals have been slaughtered. At that time the harp seal population was an estimated 10 million; today barely a million are left.

An argument raised by Canadian government officials is that the hunt is an economic necessity — nothing is further from the truth. In actuality one-tenth of one percent of the Newfoundland economy is dependent upon sealing and only two-tenths of one percent of the province's 560,000 people are employed in the commercial sealing industry.

Twanet Bender / Giving support to parents facing child's death

TWANET BENDER of Los Altos has been dedicating her time and energy these past few months working to form a group to offer emotional support to parents facing the death or serious illness of a young child.

Twanet knows that there is a need for such a service. Last April her two-year-old daughter Lonica Joy was diagnosed with aplastic anemia, which killed her in October.

"I feel that good things can come of this experience, and I'm looking for a way to share it, and focus on the positive things, like the quality of life," she said.

"Having a child die is not as common as it was a hundred years ago. There's a lot to be said for having someone to empathize with you. So often friends and family are very uncomfortable talking about death. They'll say 'Yes, I know,' or 'Let me know if I can help,' but they're not really ready to deal with it."

When she decided to try to help others going through the same experience she and her husband did, she called Palo Alto Projects, which has been providing counseling and support services for people facing limited life expectancies or death for over two years in the Bay Area.

"THE TIMING was perfect," said Carol Lillibridge, program coordinator of Palo Alto Projects, of Twanet's call last January. "We were finding that we were often doing referral services for parents of ill children. We found that there was a serious number of people asking for such services."

As a result, Carol and Twanet have been working to set up a parent support group, which they expect to start in April. It will meet biweekly on every other Wednesday, there will be no charge, and participation will be strictly voluntary. As with other programs of the projects, all clients are self-referred.

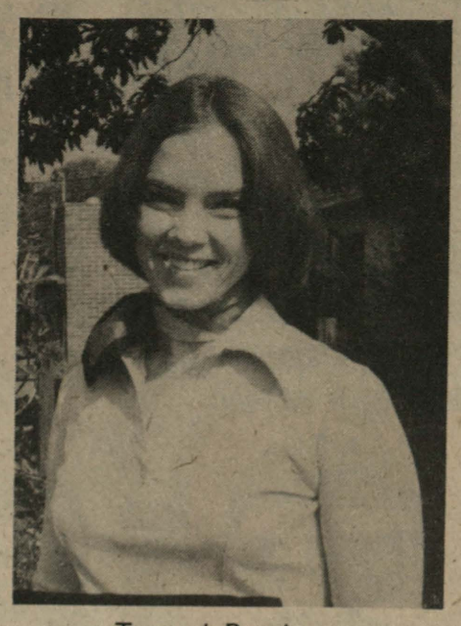
"People facing death go through many different, often overlapping reactions," Carol said. "One aspect of the group that would be helpful is in sharing these phases and stages, just talking about where one is."

"The main thing is just to get it off your chest," agreed Twanet," to share ideas and just to release tension. Someone may have an idea on how to prepare a sibling that you may never have even thought of."

Both women pointed out that having a gravely ill child poses a difficult problem of adjustment for the whole family — the parents, other children and the sick child as well, who is foten showered with gifts and attention.

"I'VE TALKED to doctors and researchers and they say the divorce rate among parents going through this is really high, with a percentage somewhere in the 90s," Twanet said.

"There's a whole guilt trip, because parents give their all to the child and then tend to expect an awful lot from their spouse. A group would help people to understand that the expectation is a natural feeling, and they could help one another to deal with it."



Twanet Bender

Palo Alto Projects, which is currently changing its name to KARA, a Gothic word meaning to reach out, grieve with, care and lament, has colunteer counselors who come from a variety of professional backgrounds, including doctors, nurses and social workers.

The counselors must commit themselves to one year's service, and go through training and screening procedures.

Two licensed social workers will head the parent support group: Kay Godlewski and Barbara August.

"We'll have two experienced clinical people there, not to give therapy but support," Carol said.

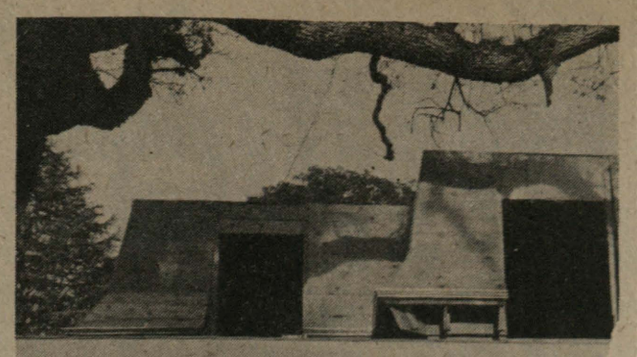
"IT'S A COMMON concept that grief perpetuates grief, which I haven't found to be true," she continued. "My own experience is that I couldn't find anyone willing to share it with me. Going through grief is becoming a part of the human race. People are born and die every day. Being able to share that is sharing a sense of humanity, and community,"

"I found that sham is just a waste of time, and it's better to be honest from the start," Twanet said, looking back on her experience. "Personally speaking, I find that that can carry on to all respects of my life."

The group will be aimed specifically at parents of children under age 12 who are suffering from a life-threatening illness. People who are interested in the sessions can call 321-9638.

Twanet will be on hand to share the knowledge she gained from her own ordeal. Her particular experience was unique in that she knew both death and life in the space of two months. A second daughter, Carina Joy, was born to Twanet and Michael Bender last August.

"It was an eventful year," she smiled softly.



HASCIENDA OAKS
11 Elegant Homes
another community by
Park Place Development Company
265-1844

A SHARP eyed reader noticed this sign on a new development under construction on Hacienda avenue. Have the developers coined a new word, Hascienda, the woman wanted to know. Developer Rich Millen said credit for the sign should go to his engineer partner Don Kaye who also forgot to have the phone number painted with the original artwork. That was added later by hand, Millen said. With the high cost of signs the owners have no plans to make a correction at this late date.

Want to build your own home? Instructor says it's possible

By JEFF MOAD

Looking for something to do in your spare time? Ready for a real challenge and lots of fresh air? Why not design and build your own home?

Impossible, you say. Not so, says Robert Roskind, a transplanted North Caroloinian who has taught over 600 ambitious Bay Area builders the ins and outs, the dos and don'ts of do-it-yourself home building through his class, "Tools and Fools".

With his partner, Charles Huddleston, Roskind and his 16-week course transform even the most green of novices into rugged, resourceful, do-it-yourself carpenters.

The course, which has been taught for a year and a half in Santa Cruz and Berkeley and before that in North Carolina, is designed for the raw amateur or, as the stocky Roskind calls them, "people who have never held a hammer."

COMMON FACTORS

About 25 percent of the people who take the $130 class are women, says Roskind. Another 30 percent are middle-aged or older, and about 40 percent are seeking what Roskind calls "an alternative lifestyle." But what most of them share with many others who have not yet taken the course, he says, is a desire to own their own dwelling and a need to save money.

Roskind, 31, estimates that you can save up to half of the cost of your home by building it yourself. Roskind, who has built four houses himself and coached students through scores more, figures the average cost of a do-it-yourself house at from $10 to $15 per square foot. After taking his course, Roskind says, people can build their dream homes at a rate of from 1.5 to 2.5 hours per square foot.

At a time when many wage earners are far from being able to meet the soaring cost of housing, the economic advantages of building one's own home are becoming more attractive. Roskind last year offered "Tools and Fools" for the first time in Los Gatos and attracted 35 students. The class, which is held Thursday nights from 7:30 to 10:30 p.m. at Henry Loose Hall, 550 Hubbell Way, off University Avenue, is just beginning its second local run.

About half of those who take his course, Roskind says, are planning a remodeling job on their existing homes. The rest are either definitely planning to build their own homes, just curious about the possibility or half way through and grasping for help.

FIRST HOUSE

"Some people come to us about half way through, having made about six drastic mistakes and pretty desperate," says Roskind. The instructor can sympathize with them because he knows the feeling. "I made my first house when I was 20, and I made all the mistakes," he admits.

The experience gained him valuable lessons, however, and Roskind says he now figures he can warn his students against all the possible mistakes lurking in the shadows. In his course and the half-inch-thick building manual that goes along with it, Roskind says, "We pretty much tell the students each and every mistake to avoid. If they can avoid those errors, their house will come out the way they want it to."

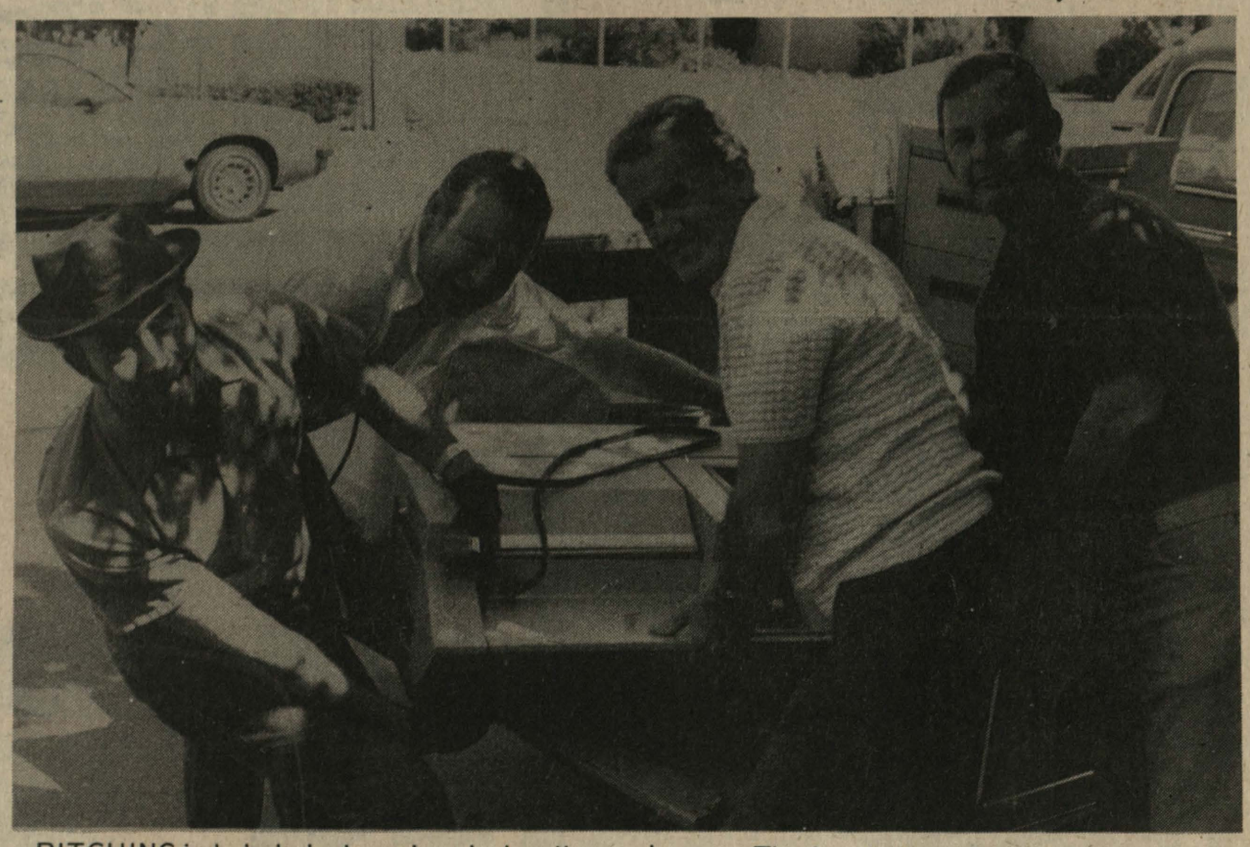
About 15 percent of those taking his course go on to build their own homes, Roskind says.

'Generic products' at Fry's

"General labeled" foods and other products are coming to Bay Area Fry's stores, the chain of stores is announcing in its April 2 advertising.

Fry's believes consumers can save from 10 to 35 percent on products ranging from green beans to paper napkins by buying the "generics." These are products in plain packages bearing qualifying statements such as "These peas may vary in color, size or maturity. They are wholesome and nutritious and are suitable for regular home meals."

The stores plan to start with 29 generic items and expand the list based on consumer acceptance. The generic product concept was introduced to the Eastern U.S. in 1977.



PITCHING in to help last weekend when the Campbell Chamber of Office moved to new quarters were, from left, Mike Kotowski, Dick Hardy, Phil Olavarri and Verne Lamar. The local chamber is not located at 328 E. Campbell ave., west of Central.
